HOW DO YOU CURRENTLY SPEND YOUR TIME?

Walk me through a typical client engagement — from first contact to lodgement.

	Activity	Time (min)
1	How long does it take to make initial contact and onboard a new client?	
2	How much time do you spend advising them on the documents and records required?	
3	How long does it take to receive, download and sort the client's source documents?	
4	How long does the data entry and return preparation take in your tax software?	
5	How long does your review, sign-off and electronic lodgement to the ATO take?	
6	How much time do you spend on post-lodgement follow-up — assessments, refunds, queries?	

THE ENGAGEMENT PROCESS

RETAUX | TAX AGENT

OUR TEAM

- Offshore client liaison staff (multilingual)
- Data entry operators — document processing & Xero preparation
- Ongoing recruitment pipeline for processing staff
- Co-founders embedded in WHM communities across Australia

ONGOING OPERATIONS

- Client support & enquiry management
- Client retention and loyalty programme (RTX referral system)
- Platform maintenance and compliance updates
- ATO correspondence and DASP claim management

THE NUMBERS

Your current time per client

Initial contact & client onboarding	___ min
Document advice & records guidance	___ min
Document receipt, download & sorting	___ min
Data entry & return preparation (Xero)	___ min
AGENT **Review, sign-off & ATO lodgement**	___ min
Post-lodgement follow-up & queries	___ min
TOTAL	**___ min**

What supervision looks like with RETAUX

01 Receive pre-filled client file via the RETAUX platform

02 Review source documents and verify data accuracy

03 Apply professional judgement — deductions, offsets, residency status

04 Approve, sign off and lodge electronically to the ATO

05 Receive confirmation — file closed

Your licence. Your judgement. Your sign-off. That is the only part of this process that requires you.
